ARBITRATION AWARD

I, Anne Malone, the undersigned arbitrator, designated by the American Arbitration Association pursuant to the Rules for New York State No-Fault Arbitration, adopted pursuant to regulations promulgated by the Superintendent of Insurance, having been duly sworn, and having heard the proofs and allegations of the parties make the following **AWARD**:

Injured Person(s) hereinafter referred to as: EIP

1. Hearing(s) held on 06/29/2026
Declared closed by the arbitrator on 06/29/2026

Peter Coritsidis, Esq. from The Bangiyev Law Firm PLLC participated virtually for the Applicant

Heather Lean, Esq. from Law Offices of Rothenberg & Romanek participated virtually for the Respondent

2. The amount claimed in the Arbitration Request, **\$2,024.17**, was AMENDED and permitted by the arbitrator at the oral hearing.

The amount claimed was amended by the applicant to \$538.01 to conform to the appropriate fee schedule.

Stipulations WERE NOT made by the parties regarding the issues to be determined.

3. Summary of Issues in Dispute

The 35 year old EIP reported involvement in a motor vehicle accident on March 24, 2025; claimed related injury and underwent an injection with guidance provided by the applicant on September 25, 2025.

The applicant submitted a claim for these medical services, payment of which was timely denied by the respondent based on the IMEs of the EIP by William Walsh, M.D. which was performed on August 23, 2025 and by Marianna Goldman, M.D. which was performed on August 27, 2025. The IME cut-off was effective on September 15, 2025.

The issue to be determined at the hearing is whether the respondent established that the medical services provided by the applicant were not medically necessary.

4. Findings, Conclusions, and Basis Therefor

This hearing was held on Zoom and the decision is based upon the documents reviewed in the Modria File as well as the arguments made by counsel and/or representative at the arbitration hearing. Only the arguments presented at the hearing are preserved in this decision; all other arguments not presented at the hearing are considered waived.

To support a lack of medical necessity defense respondent must "set forth a factual basis and medical rationale for the peer reviewer's [or examining physician's] determination that there was a lack of medical necessity for the services rendered." Provvedere, Inc. v. Republic Western Ins. Co., 2014 NY Slip Op 50219(U) (App. Term2d, 11th and 13th Jud. Dists. 2014.) Respondent bears the burden of production in support of its lack of medical necessity defense, which if established shifts the burden of persuasion to applicant. See Bronx Expert Radiology, P.C. v. Travelers Ins. Co., 2006 NY Slip Op 52116 (App. Term 1st Dept. 2006.)

The Civil Courts have held that a defendant's peer review or medical evidence must set forth more than just a basic recitation of the expert's opinion. The trial courts have held that a peer review report's medical rationale will be insufficient to meet respondent's burden of proof if: 1) the medical rationale of its expert witness is not supported by evidence of a deviation from "generally accepted medical" standards; 2) the expert fails to cite to medical authority, standard, or generally accepted medical practice as a medical rationale for his/her findings; and 3) the peer review report fails to provide specifics as to the claim at issue; is conclusory or vague. See Nir v. Allstate, 7 Misc.3d 544 (N.Y. City Civ. Ct. 2005.)

To support its contention that the services provided to the EIP were not medically necessary, the respondent relied upon the report of the independent medical examinations of the EIP by Dr. Walsh and Dr. Goldman, which were objectively negative and unremarkable. Range of motion was determined with the assistance of a goniometer. The report presents a factually sufficient, cogent medical rationale in support of respondent's lack of medical necessity defense. Drs. Walsh and Goldman performed complete and comprehensive examinations of the EIP which did not identify any objective positive findings and determined that his injuries were resolved.

IME - Dr. Walsh

Based upon the physical examination and medical records reviewed, Dr. Walsh noted that the EIP reported that he missed three weeks of work due to the accident and that he was working full time without limitations at the time the IME was conducted. Dr. Walsh determined that at the time of his examination, the EIP was healing, status post left shoulder surgery and left knee sprain/strain was resolving. He documented a mild orthopedic disability related to the left shoulder and knee and recommended further physical therapy 2 times a week for 6 weeks.

Despite these findings, Dr. Walsh determined that the EIP could work and perform activities of daily living with restrictions placed on overhead movement and heavy lifting.

In addition, there was no medical necessity for further orthopedic care including physical therapy to any other examined body parts since there were no positive, objective findings to support subjective complaints of pain. There was no medical necessity for massage therapy, shockwave therapy, injections, prescription medication, pain management or surgery, diagnostic testing, household help, special transportation or DME/supplies.

Dr. Goldman

Based upon the physical examination and medical records reviewed, Dr. Goldman noted that the EIP reported that he missed two days from work as a result of the subject accident and that he was working full time, fully duty at the time the IME was conducted. She determined that despite his subjective complaints, the EIP was not disabled and that he could perform his activities of daily living and continue working without restrictions or limitations. It was Dr. Goldman's opinion that there was no medical necessity for further neurological treatment, physical therapy, massage therapy, injections, prescription medication, diagnostic testing, durable medical equipment, household help or special transportation.

Respondent has factually demonstrated that the services provided by the applicant were not medically necessary. Accordingly, the burden now shifts to

the applicant, who bears the ultimate burden of persuasion. See Bronx Expert Radiology, P.C. v. Travelers Ins. Co., 2006 NY Slip Op 52116 (App. Term 1st Dept. 2006.)

In response to the report of the physical examination of the EIP by Drs. Walsh and Goldman, the applicant relied upon the submissions, including an office visit on August 6, 2025 which documented subjective complaints and some positive testing with restricted range of motion in the cervical and lumbar spine. The plan was to continue with physical therapy and chiropractic care.

The applicant documented sufficient contemporaneous objective findings that warranted continued treatment after the IME cut-off date and has met the burden of persuasion in rebuttal. The medical records submitted meaningfully address the arguments that are raised in the IME report and are sufficient to overcome the burden of production established by the respondent.

Based on the foregoing, the respondent has failed to establish that the services at issue were not medically necessary.

Accordingly, the applicant is awarded \$538.01 in disposition of this claim.

Any further issues submitted in the record are held to be moot and/or waived insofar as they were not raised at the time of this hearing. This decision is in full disposition of all claims for no-fault benefits presently before this Arbitrator.

5. Optional imposition of administrative costs on Applicant.
Applicable for arbitration requests filed on and after March 1, 2002.

I do NOT impose the administrative costs of arbitration to the applicant, in the amount established for the current calendar year by the Designated Organization.

6. I find as follows with regard to the policy issues before me:

- ☐ The policy was not in force on the date of the accident
- ☐ The applicant was excluded under policy conditions or exclusions
- ☐ The applicant violated policy conditions, resulting in exclusion from coverage
- ☐ The applicant was not an "eligible injured person"
- ☐ The conditions for MVAIC eligibility were not met
- ☐ The injured person was not a "qualified person" (under the MVAIC)
- ☐ The applicant's injuries didn't arise out of the "use or operation" of a motor vehicle

The respondent is not subject to the jurisdiction of the New York No-Fault arbitration forum

Accordingly, the applicant is AWARDED the following:

A.

Medical		From/To	Claim Amount	Amount Amended	Status
	YA Anesthesia NY, PC	08/06/25 - 08/06/25	\$1,339.56		Denied
	YA Anesthesia NY, PC	09/25/25 - 09/25/25	\$684.61	\$538.01	Awarded: \$538.01
Total			\$2,024.17		Awarded: \$538.01

B. The insurer shall also compute and pay the applicant interest set forth below. 12/16/2025 is the date that interest shall accrue from. This is a relevant date only to the extent set forth below.

Applicant is awarded interest pursuant to the no-fault regulations. See generally, 11 NYCRR §65-3.9. Interest shall be calculated "at a rate of two percent per month, calculated on a *pro rata* basis using a 30 day month." See 11 NYCRR §64-3.9(a). A claim becomes overdue when it is not paid within 30 days after a proper demand is made for its payment. However, the regulations toll the accrual of interest when an applicant "does not request arbitration or institute a lawsuit within 30 days after the receipt of a denial of claim form or payment of benefits" calculated pursuant to Insurance Department regulations. Where a claim is untimely denied, or not denied or paid, interest shall accrue as of the 30th day following the date the claim is presented by the claimant to the insurer for payment. Where a claim is timely denied, interest shall accrue as of the date an action is commenced or an arbitration requested, unless an action is commenced or an arbitration requested within 30 days after receipt of the denial, in which event interest shall begin to accrue as of the date the denial is received by the claimant. See, 11 NYCRR §65-3.9(c.) The Superintendent and the New York Court of Appeals has interpreted this provision to apply regardless of whether the particular denial was timely. LMK Psychological Servs. P.C. v. State Farm Mut. Auto. Ins. Co., 12 NY3d 217 (2009.)

C. Attorney's Fees

The insurer shall also pay the applicant for attorney's fees as set forth below

Applicant is awarded statutory attorney's fees pursuant to the no fault regulations. For cases filed after February 4, 2015 the attorney's fee shall be calculated as follows: 20% of the amount of first-party benefits awarded, plus interest thereon subject to no minimum fee and a maximum of \$1,360.00. See 11 NYCRR §65-4.6(d.)

- D. The respondent shall also pay the applicant forty dollars (\$40) to reimburse the applicant for the fee paid to the Designated Organization, unless the fee was previously returned pursuant to an earlier award.

This award is in full settlement of all no-fault benefit claims submitted to this arbitrator.
