ARBITRATION AWARD

I, Anne Malone, the undersigned arbitrator, designated by the American Arbitration Association pursuant to the Rules for New York State No-Fault Arbitration, adopted pursuant to regulations promulgated by the Superintendent of Insurance, having been duly sworn, and having heard the proofs and allegations of the parties make the following **AWARD**:

Injured Person(s) hereinafter referred to as: EIP

1. Hearing(s) held on 09/18/2026
Declared closed by the arbitrator on 09/18/2026

Jeffrey Kramer, Esq. from Law Office of Jeffrey M. Kramer participated virtually for the Applicant

Steven Miranda, Esq. from Marshall & Marshall, Esqs. participated virtually for the Respondent

2. The amount claimed in the Arbitration Request, **\$967.70**, was NOT AMENDED at the oral hearing.
Stipulations WERE NOT made by the parties regarding the issues to be determined.
3. Summary of Issues in Dispute

The 40 year old EIP reported involvement in a motor vehicle accident on October 29, 2024; claimed related injury and underwent cervical MRI studies provided by the applicant on December 16, 2024.

The applicant submitted a claim for these medical services, payment of which was timely denied by the respondent based upon a peer review by Jeffry Beer, M.D. dated April 15, 2025. In response, the applicant submitted a rebuttal dated November 1, 2025 by Vladimir Alhov, M.D. one of the EIP's treating medical providers.

The issue to be determined at the hearing is whether the respondent established that the medical services at issue were not medically necessary.

4. Findings, Conclusions, and Basis Therefor

This hearing was held on Zoom and the decision is based upon the documents reviewed from the Modria File as well as the arguments made by counsel and/or representative at the arbitration hearing. Only the arguments presented at the hearing are preserved in this decision; all other arguments not presented at the hearing are considered waived.

To support a lack of medical necessity defense respondent must "set forth a factual basis and medical rationale for the peer reviewer's [or examining physician's] determination that there was a lack of medical necessity for the services rendered." Provvedere, Inc. v. Republic Western Ins. Co., 2014 NY Slip Op 50219(U) (App. Term2d, 11th and 13th Jud. Dists. 2014.)

The Civil Courts have held that a defendant's peer review or report of medical examination must set forth more than just a basic recitation of the expert's opinion. The trial courts have held that a peer review or medical examination report's medical rationale will be insufficient to meet respondent's burden of proof if: 1) the medical rationale of its expert witness is not supported by evidence of a deviation from "generally accepted medical" standards; 2) the expert fails to cite to medical authority, standard, or generally accepted specifics as to the claim at issue, is conclusory or vague. See Nir v. Allstate, 7 Misc.3d 544 (N.Y. City Civ. Ct. 2005.)

To support its contention that the cervical MRI provided by the applicant were not medically necessary, respondent relies upon the peer review by Dr. Beer, who reviewed the medical records of the EIP, noted the injuries claimed and the treatment rendered to him. Dr. Beer considered possible arguments and justification for the need for the medical services at issue and determined that they were not warranted under the circumstances presented.

Dr. Beer submitted a comprehensive report in which he discussed the cervical MRI studies provided and his reasons for determining that they were not medically necessary for this EIP. He noted the standard of care for the treatment of the acute musculoskeletal injuries sustained by the EIP and determined that they did not meet these criteria and that the studies were a deviation from the standard of care.

Dr. Beer specifically noted that the EIP did not present with signs or symptoms of cervical radiculopathy and that imaging at this stage of his injuries would not be necessary for consideration of intervention in the form of injections or surgery.

He supported, with relevant medical literature, his opinion that the cervical MRI studies provided to this EIP were not medically necessary at the time they were provided.

Respondent has met its evidentiary burden. The peer review adequately sets forth the factual basis and medical rationale to support the conclusion that the medical services at issue were not indicated for this EIP. Therefore, pursuant to Bronx Expert Radiology, *supra* the burden shifts to the applicant, which bears the ultimate burden of persuasion to establish that the services at issue were medically necessary.

Respondent has factually demonstrated that the services at issue were not medically necessary. Accordingly, the burden now shifts to the applicant, which bears the ultimate burden of persuasion, pursuant to Bronx Expert Radiology, P.C., *supra*.

In opposition to the peer review, the applicant presented a rebuttal by Dr. Alhov, who disagreed with the conclusions reached by Dr. Beer and discussed in detail the injuries sustained by the EIP and the treatment rendered to him. He specifically noted that the EIP had begun a course of physical therapy and that neurological examination on December 12, 2024 revealed sprain of ligaments of the cervical spine and again recommended MRI studies.

Dr. Alhov discussed in detail the findings of Dr. Beer in the peer review and his reasons for disagreeing with the determination that cervical MRI studies were not medically necessary.

He supported with relevant medical citations his opinion that the cervical MRI studies at issue were medically necessary at the time they were provided.

After a review of all the evidence submitted an issue of fact remains as to whether the services rendered were medically necessary. Conflicting opinions have been presented in the peer review by Dr. Beer and the report of Dr. Alhov, who submitted a rebuttal on behalf of the applicant.

In this instance, the rebuttal meaningfully refers to and rebuts the findings of Dr. Beer and the medical reports submitted are sufficient to establish medical necessity for the services at issue.

Based on the foregoing, I find that the respondent has failed to establish that the cervical MRI studies at issue were not medically necessary.

Accordingly, the applicant is awarded \$967.70 in disposition of this claim.

Any further issues submitted in the record are held to be moot and/or waived insofar as they were not raised at the time of this hearing. This decision is in full disposition of all claims for no-fault benefits presently before this Arbitrator.

5. Optional imposition of administrative costs on Applicant.
Applicable for arbitration requests filed on and after March 1, 2002.

I do NOT impose the administrative costs of arbitration to the applicant, in the amount established for the current calendar year by the Designated Organization.

6. **I find as follows with regard to the policy issues before me:**

- ☐ The policy was not in force on the date of the accident
- ☐ The applicant was excluded under policy conditions or exclusions
- ☐ The applicant violated policy conditions, resulting in exclusion from coverage
- ☐ The applicant was not an "eligible injured person"
- ☐ The conditions for MVAIC eligibility were not met
- ☐ The injured person was not a "qualified person" (under the MVAIC)
- ☐ The applicant's injuries didn't arise out of the "use or operation" of a motor vehicle
- ☐ The respondent is not subject to the jurisdiction of the New York No-Fault arbitration forum

Accordingly, the applicant is AWARDED the following:

A.

Medical		From/To	Claim Amount	Status
	Eclipse Medical Imaging PC	12/16/24 - 12/16/24	\$967.70	Awarded: \$967.70
Total			\$967.70	Awarded: \$967.70

- B. The insurer shall also compute and pay the applicant interest set forth below. 11/25/2025 is the date that interest shall accrue from. This is a relevant date only to the extent set forth below.

Applicant is awarded interest pursuant to the no-fault regulations. See generally, 11 NYCRR §65-3.9. Interest shall be calculated "at a rate of two percent per month, calculated on a *pro rata* basis using a 30 day month." See 11 NYCRR §64-3.9(a). A claim becomes overdue when it is not paid within 30 days after a proper demand is made for its payment. However, the regulations toll the accrual of interest when an applicant "does not request arbitration or institute a lawsuit within 30 days after the receipt of a denial of claim form or payment of benefits" calculated pursuant to

Insurance Department regulations. Where a claim is untimely denied, or not denied or paid, interest shall accrue as of the 30th day following the date the claim is presented by the claimant to the insurer for payment. Where a claim is timely denied, interest shall accrue as of the date an action is commenced or an arbitration requested, unless an action is commenced or an arbitration requested within 30 days after receipt of the denial, in which event interest shall begin to accrue as of the date the denial is received by the claimant. See, 11 NYCRR §65-3.9(c.) The Superintendent and the New York Court of Appeals has interpreted this provision to apply regardless of whether the particular denial was timely. LMK Psychological Servs. P.C. v. State Farm Mut. Auto. Ins. Co., 12 NY3d 217 (2009.)

C. Attorney's Fees

The insurer shall also pay the applicant for attorney's fees as set forth below

Applicant is awarded statutory attorney's fees pursuant to the no fault regulations. For cases filed after February 4, 2015 the attorney's fee shall be calculated as follows: 20% of the amount of first-party benefits awarded, plus interest thereon subject to no minimum fee and a maximum of \$1,360.00. See 11 NYCRR §65-4.6(d.)

- D. The respondent shall also pay the applicant forty dollars (\$40) to reimburse the applicant for the fee paid to the Designated Organization, unless the fee was previously returned pursuant to an earlier award.

This award is in full settlement of all no-fault benefit claims submitted to this arbitrator.
